CAN WE TOSS YOU AN IDEA?

The American College & University Service Bureau launches campaign to aid students both undergraduates and graduate students in obtaining funds from foundations.

The Bureau's Director Dr. Robert J. Boileau says, "Millions of dollars originally set up in foundations to aid students in varied fields of higher education goes untouches each year due to the lack of student knowledge of the funds or the unwillingness on the part of foundation directors or administrators to publicize that there are funds in their foundations."

Students interested in information about participating in this program may write:

American College & University Service Bureau
Department F
1700 - 6050 Poplar Avenue
Memphis, Tennessee 38157

ATTENTION C.B.R.'s: The Library has the 1976 Federal Communications Commission Rules and Regulations concerning CB Radios. Part 95 - Citizens Radio Service and Part 97 - Amateur Radio Service. These will be kept on reserve at the Main Desk in the library for your use.

FOUR-Month Fall Tri student activities calendars available at the reception desk in the University Center. Pick one up any time!

CHANGE OF SERVICE TIME for Protestant and Catholic worship services - To better meet the student's needs the worship services for both the Catholic and Protestant Services have been changed to the following:

Catholic Mass 10:15 am Common Purpose Room with a coffee and doughnuts fellowship period following the mass.

Protestant Services 11:15 am Common Purpose Room, with a coffee and doughnut fellowship period starting just prior to services at 10:45 in the Cafeteria.

Regardless of your denominational preference, come and join us as we worship and praise the Lord. Dr. John Wheeler will be preaching at the Protestant Service on Sunday the 26th at 11:15 in the CPR.

TEST DATES FOR NATIONAL TEACHER EXAMINATIONS ANNOUNCED

PRINCETON, NEW JERSEY—Students completing teacher preparation programs may take the National Teacher Examinations on any of the three different test dates announced today by Educational Testing Service, a nonprofit, educational organization which prepares and administers this testing program.

Dates for the testing of prospective teachers are: November 13, 1976, February 19, 1977, and July 16, 1977. The tests will be given at nearly 400 locations throughout the United States, ETS said.

Results of the National Teacher Examinations are used by several large school districts as one of several factors in the selection of new teachers and by several states for certification or licensing of teachers. Some colleges also require all seniors preparing to teach to take the examinations.

On each full day of testing, prospective teachers may take the Common Examinations which measure their professional preparation and general educational background and an Area Examination which measures their mastery of the subject they expect to teach.

Prospective candidates should contact the school systems in which they seek employment, or their colleges, for specific advice on which examinations to take and on which dates they should be taken.

The Bulletin of information for Candidates contains a list of test centers, and general information about the examinations, as well as a Registration Form. Copies may be obtained from college placement offices, school personnel departments, or directly from National Teacher Examinations, Box 911, Educational Testing Service, Princeton, New Jersey 08540.

LEARN MORE ABOUT LIFE'S "PILOT"

By John Wheeler
University Chaplain

Life is a long flight into the future. Many people on this "trip" find it useful and calming to stay in regular contact with the "Pilot." From Him they learn the basic statistics of the flight (altitude, distance, speed and destination). They are even encouraged to "talk back" to Him.

To provide an opportunity for such "contact", the ERAU United Campus Ministry recommends and has scheduled the meeting of a prayer group on campus in the Faculty Lounge beginning Tuesday, September 28th at 7:30pm. The entire University community is cordially invited to attend.

TENNIS TOURNAMENT SCHEDULED

Embry-Riddle, along with 13 other schools, tennis clubs and city recreation departments in Volusia County is organizing a tennis tournament to benefit the American Lung Association.

Dubbed the "Life and Breath" tournament, this year's match at ERAU will be coordinated by Carl Brown, aeronautical science professor and Embry-Riddle Tennis Team coach. All ERAU students, faculty and staff are eligible to participate and are encouraged to enter.

The third annual tournament will consist of men's and women's singles and doubles elimination or round-robin competition, depending on the number of entries. Brown has scheduled the ERAU matches for Oct. 4 thru 14.

Entrance fees are \$3 for the first match and \$1 for each successive match. Winners will advance to the area finals, to be held at the Trails Racquet Club in Ormond Beach. Finalists there will compete in the state tournament Dec. 4 and 5 at the Ormond Hotel Racquet Club. Proceeds from entry fees will be tax deductible donations to the American Lung Association.

Registration for the ERAU tournament ends Sept. 28. For an application or more information, call Brown at ext. 426, or visit the Student Activities Office in the University Center.

JOIN THE SPEAKERS BUREAU

You're a person with unique interests, and that's interesting to others.

So here's your chance to share that special knowledge, experience, skill, background or whatever is "you", and help ERAU and the community at the same time.

The University Relations Dept. is organizing a Speakers Bureau. Under it, the department will keep a listing of each volunteer public speaker's specialty topics. When groups and organizations in the area request a speaker, the appropriate person or persons will be contacted and asked to appear.

The range of subjects for discussion is almost unlimited. If you've ever traveled extensively, lived in a foreign country, run a business, witnessed (or been involved in) an interesting event, developed a unique skill, or had an unusual hobby, occupation, experience or accomplishment, you're public speaker material.

Resides having the opportunity to share your interests with others, you'll be helping to build even better relations between Embry-Riddle and the Daytona Beach area.

To participate in the Speakers Bureau, simply call Elaine Agett, University Relations, at extension 333, 334, or 335.

SCHOLARSHIPS AWARDED

The Embry-Riddle Aeronautical University Scholarship Committee convened recently to select a student in a degree program to be the recipient of the Gilb Robb Wilson Scholarship.

This award is based on academic achievement and Mr. Robert Gross was unanimously selected by the Committee to receive \$500 each for the Fall '76 and Spring '77 academic trimesters.

The above allocations were credited to his account. Mr. Gordon Mallard has been selected by the Scholarship Committee for an award of a full tuition scholarship for the Fall Trimester, 1976. This is in recognition of his outstanding efforts as a student at the University.

A refund of his tuition expense will be made to him in the event he has already made a deposit toward the Fall Trimester.

Congratulations go out to all of these students for their fine achievements.

The award is based on academic achievement and Mr. Michael Meyer was unanimously selected by the Committee to receive \$750 each for the Fall '76 and Spring '77 academic trimesters.

The above allocations were credited to his account. Mr. Gordon Mallard has been selected by the Scholarship Committee for an award of a full tuition scholarship for the Fall Trimester, 1976. This is in recognition of his outstanding efforts as a student at the University.

A refund of his tuition expense will be made to him in the event he has already made a deposit toward the Fall Trimester.

Congratulations go out to all of these students for their fine achievements.

OPINIONS

THE OPINIONS EXPRESSED IN THIS PAPER ARE NOT NECESSARILY THOSE OF THE UNIVERSITY OR ALL MEMBERS OF THE STUDENT BODY.

LETTERS APPEARING IN THE AVION DO NOT NECESSARILY REFLECT THE OPINIONS OF THIS NEWSPAPER OR ITS STAFF.

EDITORIAL

It's election time again. I strongly advise everyone to find out as much as possible about each candidate. You've heard all the reasons why you should vote in ANY election before, but remember that your vote is one out of less than 2300, so it counts a lot more than a vote in a governmental election. It's your SGA, and if you don't vote, don't beef about any functions or lack thereof this term.

Parking is still a problem, and worse now that many places near the new Maintenance Tech. building have been blocked off by the construction company. If you're aggravated by the problem as much as I am, then let someone know. Write to me, Feedback column, or the administration. If new parking lots can't be built yet, then at least allow parking near the road entering the campus and along the grass on the south and west sides of the University Center.

Also, dorm residents may consider the fact that off-campus residents HAVE to drive to school. (That was a subtle hint.)

Jeffrey M. Rubin

letters

Dear Students:

The Phoenix staff would like to welcome all students returning and new to Embry-Riddle. We hope that everyone had a memorable summer.

As Embry-Riddle has started back into full swing, so has the yearbook. We are looking for students to help with Layout, photography, advertising and managing. During the past couple of years, there has been little or no student body participation in the production of our book. I hope that this year will be different. I feel that a yearbook is a vital part of any college or university. As for me, my role as Editor is to organize, but it is the student body which will either make or break the book.

This year, we will display in the University Center all pictures we have taken of activities on and off campus. Any students may sign up for photographs which may be purchased for a slight fee.

I, along with the present staff, am enthusiastic about the prospect of the new school term. If any students are interested in joining the staff, please come up to the Phoenix Office in the University Center.

Phoenix Editor
Nella Tate

Dear Editor,

Last year it was airplanes. This year it's flight instructors. I was told they didn't expect as many new students as they got. I guess that lets the Flight Line off the hook, with Admissions left holding the bag - this time. Or maybe not. Who decides where to draw the line, or is there any line? Has Riddle's "open door" policy gone a little too far this time? I understand there are 80 to 100 students who are without flight instructors this term. I could see 5 or 10, but 80? This sounds to me like poor planning and/or judgement on somebody's part, in addition to lack of consideration for the students involved. How could Riddle admit all these people when they must have known there wouldn't be enough instructors to go around? If they didn't know this was going to happen, it is still their fault for NOT knowing, as they should be aware of the limits of their faculty and facilities.

I am very disappointed with Riddle's little stunt this fall. I certainly hope this situation will be remedied without delay, and NOT allowed to happen again.

Sincerely,
Dave Bastacky

ONTOLOGY

By Ken Jagodzinski

"I Think Therefore I Am"
—Descartes

I was asked to prove my existence. Hear my answer..... You asked me to prove that I exist. In answering, a paradox will arise. Let me quote Erich Fromm's "The Art of Loving."

"When man is born, the human race as well as the individual, he is thrown out of a situation which was definite as definite as the instincts, into a situation which is indefinite, uncertain and open. There is certainty only about the past and about the future only as far as that is death."

Man is gifted with reason; he is life being aware of itself; he has awareness of himself, of his fellow man, of his past, and of the possibilities of his future. This awareness of himself as a separate entity, the awareness of his own short span of life, of the fact that without his will he is born and against his will he dies, that he will be before those whom he loves, or they before him, the awareness of his aloneness and separateness, of his helplessness before the forces of nature and society, all this makes his separate, disunited existence an unbearable prison. He would become insane could he not liberate himself from his prison and reach out, unite himself in some form or other with men, with the world outside."

This passage suggests that in order to exist, one must be aware of existence. Also, to exist there is a separateness, a uniqueness. The paradox occurs when man, being separate, tries to overcome his separateness.

Here is another quote, that of Helen Keller.

"Mine has been the limited experience of one who lives in a world with out color and without sound. But ever since my student days I have had a joyous certainty that my physical handicaps were not an essential part of my being, since they were not in any way a part of my mind. This faith was confirmed when I came to Descartes' maxim, 'I think therefore I am'."

Those five emphatic words waked something in me that has never slept since. I knew then that my mind could be a positive instrument of happiness, bridging over the dark, silent void with concepts of a vibrant, light-flooded happiness. I learned that it is possible for us to create light and sound and order within us, no matter what calamity may befall us in the outer world."

Ms. Keller refers to Descartes' thought "I think therefore I am." I firmly believe that I exist, therefore I do. In order for me to communicate my existence to you I must be a reality in your mind. You must have trust and faith. In other words you must believe that I am real. What you believe is more real than reality. If you think then you exist. If you experience me in your mind then I too must exist. But you must be aware of your own existence in order to experience my existence. I CAN make you believe that I exist, and if I do, then I become real to you. I become a concern of yours because I will affect your existence. For instance, I could instill fear with a gun or joy with a friendship, or I could write this article and be a student in a class here at Embry-Riddle. I could be your wife or your enemy. In either case, I am affecting your existence.

PRESIDENT'S CORNER

By Gary Gross

Elections are in one week, so please remember to vote. Booths will be set up in the cafeteria (and hopefully at M.T. and GRW) all day.

I'm not running for re-election this year. The reasons are numerous. The main one is the fact that my grade have bottomed out so badly that R.O.T.C. is definitely thinking of turning this shakely student into a Sgt. again. I've been in the SGA ever since I arrived at school and the drawbacks started outweighing the benefits a long time ago.

It's funny how every election there are people running for president saying how much they want to work for the students, but for all the promises they've been here they've never bothered to get involved. If you stop and take a look, you'll realize it's easy to spot which students have shown they want to work and which have shown they want the title.

I've heard a lot of funny campaign promises from candidates on what policies they're going to set when they're president. This really shows ignorance, because the president and vice president don't set any policies. The Senate does, and the vice only has a vote in case of a tie. The president is there to carry out the policies the Senate makes - and he makes NONE of his own.

The Dean of Student Affairs Office has come up with a set of questions to ask each presidential candidate. Their answers will be posted around campus. Please stop and read them.

Well, my next column will be my last, so please be sure to read it because I think it will be pretty interesting.

P.S. I think anyone who wants this job is a fool!

VP THOUGHTS

By Dave Fraser

I'll cut this article short, due to the hectic week. One last time, I'll stress attending all the final fraternity and club rush parties this coming weekend, getting together meeting people and having a good time!

Not much is new on the campus. I was looking at the SGA social functions calendar the other day and there are some pretty good functions. We are going to have a night beach party up at the Water Tower in Ormond

Beach October 23rd with the SGA supplying a few kegs. That should be an excellent time. Along with a Halloween dance in October, we have four movies planned. October 1st "Odessa Files", the following Friday night is "Clockwork Orange", then "Chinatown", and finally, the night before the dance "Psycho" will be shown. (That should set the mood for Halloween.) It all sounds like a good time, so I hope everyone is looking forward to it.

Neither you nor I can argue that I have not affected your destiny. I am a part of your reality - physically, mentally, and spiritually. I am an integral part of your existence without which you could not exist. So if you believe that you exist (and you must in order to question my existence), I exist, because if you doubt my existence (now a part of your own existence) you doubt your own. That is impossible. I am part of your existence. Without

me you could no longer exist. I am part of your being, your past and your ontological self. Do you believe that I exist?

Now that you have read my column, I now have become a part of your existence. I have affected your being. I am now a reality in your mind and therefore an existence in every sense of the thought.

My mark is left behind. How long will it be remembered? So long and be kind!

EX

By Billy Frey

I'll start out by welcoming all the freshmen. By now I'm sure you all realize the necessity of us working together, 'cause the administration won't give the individual an even chance. Get in the SGA and campus organizations. Even if we can't change the rules, we can have a lot more fun with in the rules. Come out to our house and see what I mean.

Friday night just saw us make the trek out to Rosie O'Grady's in Orlando. A great time! For those of you who have never been, I recommend it. The only waste of the evening was my following one of our brothers back at a speed not commensurate with my desires, as I was concerned over his weaving down I-4. Seems he was not impaired by the alcohol, only by his girlfriend's attentions!

By Disco Doug

Cypress Village Clubhouse rocked on Friday night as more than 110 guests of the Vets Club partied, danced and drank the night away. Lots of great guys and foxy women put away over \$200. worth of drinks, beer, punch, cheeses, meats, crackers and dips. Everyone expressed themselves as having a good time. We sincerely hope so!

If this past tri-annual affair offers any insight, then it appears that we're going to have a really fine collection of members this fall. Among the many new faces are several retired and active duty personnel who are great additions to the largest organization on campus.

While Paul, Kevin, and Doug winded and dined with new and prospective members, Rock, the local R.A., made an appearance. What's an R.A. you say? That's Hebrew for resident alcoholic.

Paul decided to create his infamous "Paralyzing Punch" for the women. This secret concoction of 151 Rum and other delights must have smoked a few people. Even Paul became a casualty.

It was great to see all those ladies present. I believe they came to investigate their men back home again because some people were

definitely flying IFR. One chick named "Foxy", let Dave Brackett crash and burn outside on the patio and she headed off in another direction. Sorry 'bout that Dave!

Special thanks to Robin, Mike, Dave, and Smokey who flawlessly handled all the bar customers with precision and grace. Also, I'd like to thank Peggy Reilly and Ric Baribault for their welcomed assistance.

The Coors "raffle" held during the party was won by Becky Law and Ron Clute. Congratulations and many happy beer fairs to BOTH of you. *@%&*!

Those members who couldn't make the party or those who are interested in joining, plan on attending the Vets Business Meeting this Friday at 7:30 pm in the University Center. We'll discuss upcoming events such as the Raft Race, the Wine-Tasting party, flag football, associate membership, and no doubt our Special Business Meeting. (Remember: this meeting is closed to all wives and girlfriends. They can meet together in the Pub.)

SPORTS:

In the first upcoming weekend of intramural flag football, the Vets Club begins defense of the championship they have won the past 2 years. As yet, our opponent is unknown but it shall prove to be a test for the powerful Vets Club team.

Again this year, as in the past, we encourage all members and their dates to come cheer on the Vets thru thick and thin. Beer is always provided and depending on the time, a Bar-B-Q will be in order. What better way to spend an autumn afternoon than watching live flag football, Vets Club style. For game times, check the paper or the staff in the Used Bookstore, ext. 312.

Any member who would like

Smiling faces of a group of the VETS are seen here before they departed on a summer tri-escape to River Country in Disney World.

to row for the Vets Club in the Riddle Regatta should stop by the Used Bookstore or see Kevin Reilly for details. You only have 2 more weeks to meet the challenge.

REMINDER:

To become a member of the Vets Club, you either have to be on active duty, retired or formerly engaged in the military.

"Where Have all the Parking Spaces Gone?"

"Sung to the tune of 'Where Have all the Flowers Gone?'"

Where have all the parking spaces gone

Long time passing

Where have all the parking spaces gone

Long time ago

They've gone to auto's everyone

When will they ever learn

When will they ever learn

Where will all the cars be parked

When Jan - u - ary M.T.'s come?

Where will all the cars be parked

When the hunger is done?

Parked on each other one by one

When will they ever learn

When will they ever learn

How far will we have to hike

To get to classes?

How quick will we have to hike

To get there on time?

Far and fast to every class

When will they ever learn

When will they ever learn

MGT CLUB

By Mike Ross

The Management Club has gotten off to a fast start this tri with an Open House on September 8 where over 40 prospective new members attended. On September 15, the Management Club held its monthly business/dinner meeting at the University Center.

Following the roast beef dinner, the club enjoyed listening to our speaker for the evening, Mr. A. L. Hilton, manager of Daytona Beach Aviation and Commander of Ormond Beach. Mr. Hilton explained the problems he faced when he took over as manager when both FBO's were in financial trouble, and he revealed some of the critical steps he took to make his business profitable in a short time.

Mr. Hilton joins the ranks of the fine speakers we have had in the past, including the Vice-President of Operations for Eastern Airlines, Production Manager of Piper Aircraft, and the late Emmett Tully of Birdman Aircraft.

Although the Management Club did not hold regular meetings during the summer, those members that were here raised \$120 that was donated to the Jerry Lewis Telethon for Muscular Dystrophy.

This is not a club for just management students; we invite every student and every faculty member who would enjoy the fellowship of other students and faculty members in learning firsthand the experiences of those with proven success in all phases of aviation. Our next dinner meeting will be on October 13 with a speaker hopefully from Executive Jet Aviation from Columbus, Ohio, a company which provides jet services for hire. If you would like to join the Management Club, dues are \$3 each tri and \$3 per dinner. To establish your membership, see John Hawkins, Secretary/Treasurer of the club.

SCUBA NEWS

By Jess Wilson

Well, another trimester is well underway and the Scuba Club has had its first dive. Four members of the club, Charles Kidd, Jim Watt, Steve Muschler and Jess Wilson, went to Blue Springs where Steve was initiated to cave/spring diving. It was a really good dive, as we were the second group there, and the water was very clear. Four down and back: another successful dive.

This coming Sunday, on September 26, the club will be going to De Leon Springs. We will meet in the parking lot in front of the University Center at 8:00 am. So those interested in going, come on out and enjoy a real good dive.

For more information, contact Jess Wilson at Box 5043 or phone 258-1052 after 6:00 pm. Also, remember that the next Scuba Club meeting is on Monday, the 27th of September at 5:00 pm in the University Center Common Purpose Room. Come on down.

By Raymond Gilner

There comes a time in every college man's life when he is confronted with the question of whether or not to join a fraternity. Some let this opportunity pass them by, while others like myself see its value and become involved.

The major value of a fraternity is the challenge it can offer its members. The challenge is to participate, to organize, and to lead. The challenge to take what is learned in the classroom and

apply it today instead of ten years from now.

However, beyond the decision to go Greek is the question of which Greek? Here the decision boils down to one thing, the members. A house can offer all the opportunity and challenge in the world, and if its members aren't the type of people with whom you want to live, then you might as well look elsewhere.

It was both the challenge and the guys that made me choose Delta Chi. It is also these same two things that still hold my interest today. The challenges to participate, organize and lead, increase with every year that I am a member. Although the brothers may change some from year to year it is still because of them that I want to answer these challenges.

If the magic of a fraternity seems to have lost your interest, over the years, maybe it's because you can't meet the challenges it offers (but more than likely, it's because you don't want to) or maybe you have forgotten why you once called someone your brother.

Why did I join Delta Chi? Well, I didn't join for athletic competition. I know that even the most powerful bodies thrive in time. At I didn't join for intellectual stimulation because even the most dumber of minds will.

I didn't join for the parties or for the women. Nor did I join for the chance of being elected an officer. Neither did I join my transcripts would show that I was an active member of an organization. So why did I?

I joined Delta Chi Fraternity, a brotherhood of individuals, not two alike, no two trying to be alike. A brotherhood in which for all Delta Chi's are really my brothers. We all share the common bond.

And the bond is forever. That's why I joined Delta Chi.

happenings at your theater

CHILDREN'S THEATRE WORKSHOPS

Ray Jensen, Artistic Director of the Daytona Playhouse, announces two Fall semester workshops in acting to be held each Saturday morning at 10:00 am, and 12:00 noon, beginning October 9, 1976.

The duration of the children's workshop will be six weeks, and will include voice training, improvisation exercises, theatre games, and an introduction to acting.

Participants in the 10:00 class should be between the ages of 6 and 10. The noon class will be for ages 11 thru 15. A \$20.00 enrollment fee will be charged to each student for the six-week course.

Any parent requesting enrollment for their child, or any student enrolling on his/her own should do so no later than Friday, October 1. Call Mr. Jensen at the Daytona Playhouse, 255-2431 for additional information.

CAREER PLANNING AND STUDENT PLACEMENT

The Career Planning and Placement Center is now in the process of reorganizing their career reference library.

In the past, the companies listed in the library were arranged alphabetically. Now, they will be listed according to the product or type of service they provide. This system will allow students to go directly to the information pertinent to their selected career field.

Because ERAU is aviation-oriented, most of the material concerns the aviation and aerospace industries, but there also is a substantial listing of non-aviation companies as well as management and insurance companies.

Also available in our office for students use is a cassette tape explaining the interviewing process. This job is an excellent guide for those students who will be interviewing for a job in the future.

The Career Planning and Placement Center located in the University Center, is open from 8 am to 5 pm, Monday thru Friday. These services and more are provided free of charge. Don't pass up this opportunity.

EMBRY-RIDDLE

SKYDIVERS

Andy Reyling shown here holding the pilot chute of his hand-deployed wondrous hogrig while in freefall. Andy is the faculty advisor and jumpmaster for the Embry-Riddle Skydivers.

Embry-Riddle Skydivers, the schools sport parachuting club is off to another year of sporting events. To start the year, the club's demonstration team made a jump at Embry-Riddle on Sept. 3. The three team members maneuvered their way between trees and dormitory, landing on the south lawn during the barbecue after orientation. The purpose of the demo was to invite new and returning students, who feel they may be interested in skydiving, to attend a club meeting and find out what it takes to make a parachute jump. Embry-Riddle Skydivers also welcomes anyone who may not be able to make a jump at first, but is still interested in skydiving and would like to participate in club meetings, parties and other activities. Preforming the demonstration jump were team members Doug Benson, Andy Reyling and Bill Murray. I didn't see the jump, but Benson says he looked good.

Since the beginning of the fall semester 23 people have signed up to make their first jump. Thanks to the extra help and time put in by jumpmasters Bill Murray and Andy Reyling. Eight of the 23 have already made their first jump. They are: Tim Kar-

pa, Ken Hoff, Peggy Wisc, Jan Oldeboom, Paul Bassett, Bill Payne, Doug Buerbach and Marie Laterra. Congratulations jumpers and welcome to the sport of skydiving. Bill and Andy have made themselves available to students any week day and Terry Pickup will jumpmaster students on weekends. (Pickup is the skinny guy with the deep voice.) This means that students may jump any day of the week. Any student having questions about the club or jumping, may contact Andy Reyling, instructor number 302 at GRW.

Club meetings will be held every two weeks. A specific day has not been set yet, but the date, time and location of our next meeting will be posted in the U. C. Among other things, the club will be discussing and possibly voting on club officers, new and old rules, and the date and place of our next party. Everyone interested is welcome to attend. Special thanks to Sid Brown, who after a morning of persuasion and an afternoon of preparation, test jumped my rig for me. I'm told also that congratulations to Barb Shalit are also in order. Barb, exercising unique canopy control, landed on the disc (a four inch in diameter wooden circle) for the first time.

Sigma Phi Delta

By Joe Biebel

Last Friday, Sigma Phi Delta held its Fall trimester rush party. Everybody seemed to have a good time, especially Eddie, who found himself in our South House Saturday morning. Eddie wasn't the only one who sucked out. An engineering student who came to our party to find a good time apparently found it because by the end of the party, he was sucked out on a couch in the living room of our Castle. Apparently, they both had a little too much of "the good stuff".

So much for the partying side of life, now a note a little more on the serious side. The engineering curriculum is the most demanding curriculum at Embry-Riddle. With this in mind, the brothers of Sigma Phi Delta know about many of the problems encountered by engineering students. Why is this? It's because Sigma Phi Delta is a fraternity for engineering students only. This means that the brothers have themselves personally encountered many of the problems that an engineering student is likely to have.

Any engineering student who has questions about our fraternity, or who would like to see the only fraternity on campus that is strictly for engineering students is welcome to come to our meeting this Monday, September 27, at 8:00 pm. Our Castle is located at 519 S. Ridgewood Ave.

RIDDLE STUDENT TOURS CONCORDE

Dennis Martin, an Embry-Riddle student at Rhein Main, Germany, recently spent an hour in the cockpit of a Concorde discussing the aircraft with the Air France pilot. This event didn't just happen, it required some planning. First Dennis wrote Air France. Just before the Concorde's one-day publicity stop at the Frankfurt International Airport he was notified that he was one of the few who had been granted a boarding pass for this event.

For over an hour Dennis sat up front with the Air France pilot learning first hand what it was like to fly the latest in supersonic commercial aircraft. Dennis came away with a first-hand report for his aviation history class as well as numerous slides taken inside and out of the aircraft. He felt that the highlight had to be the opportunity to sit with the pilot in his 'office' and talk about flying the mach two bird, pilot to pilot. The instructor of the Embry-Riddle course, Frank Vander-

Wort, noted that "This is an example of the kind of unique opportunities students are finding in Europe - opportunities that might not be available back on the campus."

Other class activities included a full evening aboard a C-5A. Dan Lavergne, the crew chief (ERAU student) had power on the aircraft and gave a full check out of all systems. Another evening Herr Goering, nephew of Herman Goering, visited the class and told about his experiences as a night fighter with the Luftwaffe including insights to his relationship with his uncle, Adolph Hitler and other Axis leaders. To add another dimension to the events of WWII in Germany, Doris Brittingham, the daughter of a German Army General during the war years, visited the class. She spoke about her life growing up in Nazi Germany and the efforts required to survive during the bombings and in the confusion immediately after the war.

PRE - - CANA COURSE OFFERED

The Pre-Cana Course for young couples planning to be married will be held Tuesday and Wednesday, October 26th and 27th in the Common Purpose Room of the University Center at 7:30 pm - 10:00 pm. All couples, whether Catholic or not, are warmly invited to attend.

**Tuesday
October 26th** Mr. Charles Caravati, CPA, "Can two live as cheaply as one?"
Dr. & Mrs. Jerry Carpenter, Director of Catholic Social Services, "How to Fight!"

**Wednesday
October 27th** Fr. Martin Keller, O.S.A., Catholic Campus Minister, "Marriage in the Church."
Dr. O. B. Bonner, Jr., Gynecologist, "All you wanted to know, but were afraid to ask."

Should any couples be separated geographically, the one in this area should come and later share with the partner whatever insights were gained. The sessions will be informal, so come to ask questions and discuss.

NATIONAL ENDOWMENT FOR THE HUMANITIES ANNOUNCES NEW 'COURSES BY NEWSPAPER' OFFERING

Washington, D.C.—Beginning the week of September 5, 1976, over 250 cooperating newspapers and educational institutions across the nation will offer the COURSES BY NEWSPAPER program on humanity's broad involvement with the sea, "Oceans: Our Continuing Frontier."

This is a part of a national COURSES BY NEWSPAPER program developed, under the sponsorship of the National Endowment for the Humanities, by the University of California. The goal of the newspaper program is to make academic subjects attractive and readily available. It has led thousands of readers into a rediscovery of the pleasure of learning. And, college credits may be awarded by a cooperating institution of higher education located in the newspaper's circulation area.

Topics to be discussed in the newspaper articles include: the oceans' impact on art and literature; their valuable resources; their importance to international order; their allure as a place to work and play; and the new knowledge of earth's history derived from their study.

Dr. Ronald S. Berman, Chairman of the National Endowment for the Humanities (NEH), announced the imminent beginning of the "Oceans" course as the fifth in a continuing newspaper series of significant topical subjects.

"The Oceans" course has been over a year in the making," said Dr. Berman. "It coincides with the reworking in New York City of the Third United Nations Conference on Law of the Sea. This timely newspaper series will contribute to America's understanding of the international diplomatic efforts being expended in developing a body of law governing the oceans and the development of their resources."

Newspaper articles for the 16 week "Oceans" series have been written by thirteen marine experts under the direction of course coordinator H. William Menard, Professor of Geology, Institute of Marine Resources, Scripps Institution of Oceanography, University of California, San Diego.

The newspaper articles and related illustrations will be distributed by the National Newspaper Association and United Press International free of charge to participating newspapers. In addition to the photo illustrations for each of the articles, there are also 16 original cartoons created by Tony Busto, editorial cartoonist for the Phoenix Gazette.

As in previous course offerings, newspaper readers may choose from several levels of participation. The reader may simply follow the weekly articles in the local newspaper as a matter of general interest. Or the newspaper reader, seeking a more personal involvement, may order inexpensive books which will supplement the newspaper articles. Or finally, college credit may be acquired for the course by enrolling at a participating college or university, attending several class meetings, and taking a final examination.

COURSES BY NEWSPAPER is also encouraging civic groups, service clubs, unions, religious and youth organizations, and local libraries to form discussion groups and community programs based on course topics. To simplify such program planning, a source book which features program ideas and resources has been prepared. COURSES BY NEWSPAPER has also prepared a comprehensive anthology and a study guide for the course. All of these materials

for "Oceans: Our Continuing Frontier" may be ordered from Publisher's Inc., 243 12th Street, Drawer P, Del Mar, California 92014.

The National Endowment for the Humanities' grant of \$377,092 in outright Federal funds and \$100,000 in gifts and matching funds has been used to support the development of the "Oceans" course being offered in this fall semester. These funds have also been used to plan another course, "Moral Choices in Contemporary Society" which will be offered in January, 1977.

The National Endowment for the Humanities has also announced a grant of \$22,380 to KPBS-TV of San Diego State University. These funds will be used to support research for the production of a series of television documentaries which will be shown in conjunction with the 1977-78 COURSES BY NEWSPAPER.

In the 1975-76 academic year, COURSES BY NEWSPAPER offered two courses entitled "American Society in the Making" and "The Molding of American Values" which followed the weekly topics of the AMERICAN ISSUES FORUM, a national Bicentennial calendar of discussion topics developed by the National Endowment for the Humanities and co-sponsored by the American Revolution Bicentennial Administration. Those courses were also funded by an NEH grant of \$357,746. Two earlier courses, "America and the Future of Man" and "In Search of the American Dream" were also developed with the support of NEH grants.

For further information concerning the course, "Oceans: Our Continuing Frontier," contact George A. Colburn, Project Director, University of California at San Diego, Q-056, La Jolla, California 92093. Telephone: (714) 452-3405.

HILS-HAGGERTY

WE DO CARE!

The time has come to move the SGA out of the hands of the cliques and special interest groups, and return it to the students where it belongs. Norm Hils and Dan Haggerty have been at Embry-Riddle a combined total of 5 years and know the problems you've been having with the administration and unfortunately with the SGA. If you have any particular problems or comments, drop a line in Box 3127 or 3098. They will be answered. Let's VOTE for the "non-special interest group" team.

VOTE!

As the voting time nears I feel that you, as a student, should be aware of the candidates, and their issues.

Up to this time, (so far as I know) there has always been the President & Vice President slots separate from the Secretary, Treasurer, and Justices. But now there is a group who have united as one with the same goals in mind.

Their names? Jim Ward, Pres., John Dolwick, V.P., Bill Whetsel, Bill Whetsel, Britt Mulhollem, Justices.

They are dedicated to getting the problems of the students solved.

So when it is time to vote, remember the students who believe in students:

JIM WARD - PRESIDENT

JOHN DOLWICK - VICE PRESIDENT

BILL WHETSEL - JUSTICE

BRITT MULHOLLEN - JUSTICE

VOTE

JEFF "BABS" STANTON
S.G.A. STUDENT SENATOR

"Gettin' together is what it's all about."

GET OUT AND VOTE!!

You say you had an informal meeting with Security?

I MAY BE ABLE TO HELP YOU!

PLEASE VOTE BRITT MULHOLLEN FOR JUSTICE.

PAUL FITZGERALD - PRESIDENT

"Where is our money going? Students and parents have a right to know exactly how each tuition dollar is spent. This means full ERAU budget disclosure. Also, communication between the SGA and the Flight Division Chairman is needed to help resolve many of the problems that now exist there. I will look forward with you to help better our school. Vote on September 29."

MARK SCHOLL - VICE PRESIDENT

"FITZ AND I feel we can best represent ALL the students. Fitz served on the Senate last year, and I was a flight instructor here at Riddle. The important thing is for ALL the students to get involved. We are both juniors, and we have no special interest groups to cater to. With all the students behind us, we can get a lot done."

JOHN O'NEAL

On Sept. 29th you're going to decide on who will be the next SGA President and Vice-President & here are a few facts you should know

- (1) Dave and I are not members of the same common interest group, unlike Hils/Haggerty (ROTC) or Fitzgerald/Scholl (Sigma Chi).
- (2) Dave and I have been involved in all aspects of the SGA and we know the duties and responsibilities.
- (3) If someone is sincerely interested in working for the students, they would have started months back when the SGA was begging for Senators and not now at ticket-punching time (election time).
- (4) Do you really want to turn a \$23,000 dollar budget over to two people whose knowledge of the offices is limited to their location?

DAVE FRASER

I'LL JUST STATE A FEW REASONS WHY ONE SHOULD VOTE FOR JOHN O'NEAL AND DAVE FRASER FOR SGA PRESIDENT AND VICE PRESIDENT RESPECTIVELY. ALMOST EVERYONE WHO IS RUNNING AGAINST US HAS NOT SHOWN ANY INTEREST IN THE SGA UNTIL NOW. THE CANDIDATES FOR PRESIDENT, HILS AND WARD, WEREN'T EVEN SENATORS LAST TRIMESTER. THAT'S GREAT. I CAN UNDERSTAND RUNNING FOR THE OFFICE IF ONE HAS BEEN A SENATOR BEFORE BUT IT'S STRANGE THAT THEY HAVEN'T SHOWN AN INTEREST UNTIL NOW. I WONDER IF THEY EVEN KNOW HOW THE INTERNAL STRUCTURE OF THE SGA WORKS. I HOPE THE FRESHMEN AREN'T SUGGERED INTO VOTING FOR THEM BECAUSE THAT'S THE VOTE THAT THEY'RE TRYING TO SWAY.

JOHN O'NEAL IS OVER 30 YEARS OLD, HE HAS FIELD EXPERIENCE IN MANAGEMENT ON TOP OF HIS SGA INVOLVEMENT. JOHN HONESTLY FIGHTS FOR THE STUDENT'S RIGHTS. HE IS OUR STUDENT REPRESENTATIVE ON VARIOUS ADMINISTRATIVE COMMITTEES AND WHEN SOME OF THE BIGGER STUDY TRY AND GIVE US THE SHAFT, HE DOESN'T TAKE ANY "BULL" BELIEVE ME, JOHN STANDS UP FOR STUDENT'S RIGHTS.

I AM THE CURRENT VICE PRESIDENT AND I HAVE ALSO SERVED AS A SENATOR IN THE PAST. I REALIZE THAT EMBRY-RIDDLE NEEDS MONEY TO OPERATE AND I HAVE ALWAYS TRIED TO STAY OUT OF MONETARY MATTERS AND THE FINANCIAL POLICIES OF THIS SCHOOL. HOWEVER, I KNOW RIGHT FROM WRONG AND WHAT IS FAIR IS FAIR. I PAY WELL OVER \$5,000 A YEAR TO ATTEND HERE AND I WILL HAVE A \$7,500 LOAN TO PAY OFF WHEN I GRADUATE. SO I GET VERY VERY UPSET WHEN I GET A RAW DEAL FROM THE SCHOOL. I DON'T CARE WHAT ANYONE SAYS, I SEE IT HAPPEN TO STUDENTS EVERY DAY AND MANY TIMES IT HAS NOTHING TO DO WITH MONEY AT ALL.

ALL I WANT TO HAVE IS A FAIR SHARE ON CAMPUS AND AS LONG AS I'M HERE I'LL WORK FOR IT.

ELECT

PAUL POSTIGHONE
SENATOR, S.G.A.

THANKS FOR TAKING TWO PARKING SPACES

I had to park two blocks away
you stupid, inconsiderate moron

Get today's pictures back tomorrow.

Snappy's Photo Shops offer overnight processing on most films, so you can laugh and cry and eek and aah over your memories the day after you make them. And while you're at Snappy's, pick up more film, film supplies, photo albums or even order enlargements up to poster size of your favorite shots. You'll find a convenient Snappy's near you. Come by and drop off your film today. And pick up your memories tomorrow.

- 15 YEARS OLD TO RIDE
- 25 MPH LIMIT

WE HOWEVER SUGGEST THESE

Introducing the PUCH Moped. For people who aren't exactly rushing to go between here and there. It's a very simple new transportation idea. A road machine that gives you a fully automatic transmission, virtually maintenance-free operation, 150 mpg, and time enough to enjoy the trip. It's also very solid, very dependable. We tested and proved more than a million of them in Europe before bringing this one to America.

So even if you're not in too big a hurry to try something new, come in and see how slowly you can go from 0 to 25. Just for the fun of it.

INTRODUCING THE PUCH MOPEL. THE GO-BETWEEN.
